- `</>` <https://github.com/heryandejesus/formulario-de-contacto>
Contact form built with HTML and CSS. FreeCodeCamp project.
- `</>` <https://github.com/heryandejesus/proyectorafa>
Website for a scalp micropigmentation services company built with HTML, CSS, JavaScript, and other technologies.

About me

Passionate web developer focused on frontend development. I master technologies from the JavaScript ecosystem, with a strong focus on creating modern and functional applications. I'm constantly learning new technologies, and my goal is to become a full stack developer. I currently work as a freelancer and I'm truly passionate about what I do.
